

High Performance Player Support Policy

Purpose: To assist players with nationally recognised talents to further their squash playing endeavours by financially assisting them to attend national squad training sessions and competitions.

Background: Squash New Zealand has a number of national high performance squads for junior and senior players. Squash Northland encourages all levels of participation in the game of squash but recognises that there can be hefty financial costs for those who excel and are driven to compete at high performance levels. On the basis that the selection in SNZ high performance squads is a considerable achievement and is matched by an increased commitment by the players (and their families), Squash Northland provides an annual contribution to players achieving (and committing to) national squad selection.

High Performance Player Support Payments (currently approved):

SNZ National Squad	\$300
SNZ World Junior Team	\$500
SNZ Junior Development Squad	\$300
